Acumed® Hand Fracture System

The Acumed Hand Fracture System is designed to surgically treat various metacarpal and phalangeal fractures, fusions, and osteotomies and includes five solutions in one tray. Versatile screws, customizable plates, and dedicated instrumentation offer a comprehensive system to streamline the surgical experience.

The system features precontoured standard plates, specialty plates, and Hexalobe MultiScrews. Hexalobe Lag Screws and threaded K-wires are also included for less complicated fractures. Acumed’s Small Bone Fixator and Small Bone Distractor provide external fixation options.

**SPECIALTY PLATES**

**Avulsion Fractures**

The 0.8 mm Avulsion Hook Plate is designed to provide more stability than a K-wire when a fragment is too small for a single lag screw.

**Rolando Fractures**

The 1.3 mm Rolando Fracture Hook Plate is designed for a three-part fracture pattern of the base of the first metacarpal.

**Metacarpal Neck Fractures**

The 1.3 mm Metacarpal Neck Plate is designed to provide fixation for metacarpal neck fractures.

**Rotational Malunion Osteotomies**

The 1.3 mm Rotational Correction Plate is designed to be used with an osteotomy for correcting rotational malunions.

**Diaphyseal Fractures**

The 0.8 mm Curved Medial/Lateral Plate is designed for diaphyseal fractures when a medial or lateral approach is preferred.

**MULTISCREW TECHNOLOGY**

1.5 mm and 2.3 mm Hexalobe MultiScrews act as nonlocking and variable angle locking and can be used in either plate locking.

**0.8 mm plate**

**1.3 mm plate**

**HEXALOBE LAG SCREW TECHNOLOGY**

1.5 mm and 2.3 mm Hexalobe Lag Screws do not require overdrilling of the near cortex and are intended to be used independently or through slotted plate holes.

**1.5 mm**  **2.3 mm**

**CUSTOMIZABLE PLATES**

Plates can be bent and cut to length to better fit individual patient anatomy. Custom plate cutters are included in the system and are designed to create a smooth rounded edge on any Acumed Hand Fracture System plate except the Avulsion Plate.
