Contact: Ed Boehmer, Regulatory Specialist

Classification Name: Rod, Fixation, Intramedullary and Accessories
Common Name: Radius, Ulna, and Fibula Rods
Proprietary Name: Acumed Small Bone Locking Rod System II
Proposed Regulatory Class: Class II, 21 CFR 888.3020
Device Product Code: HSB
Legally Marketed Equivalent Device(s):
- Acumed Small Bone Locking Rod System K951673
- Biomet Inc. Titanium Intramedullary Rods Various Sizes K982953
- Biomet Inc. S.S.T. Small Bone Locking Nail K# unknown
- Encore Orthopedics Inc. True/Flex Intramedullary Rod K913949

Device Description: The Acumed Small Bone Locking Rod II is an intramedullary rod with solid and cannulated versions. Rods are manufactured in multiple lengths (110 mm to 270mm) and diameters (3.0 to 4.5 mm). The rod has openings used in conjunction with titanium alloy cortical screws, which lock it in place.

Intended Use: The Acumed Small Bone Locking Rod II System is indicated for use in fractures and osteotomies of the fibula, radius, and ulna. These are similar to intended use of predicate devices and do not raise new issues of safety and effectiveness.

Technological Characteristics: The Acumed Small Bone Locking Rods II are slightly bowed rods made from titanium 6AL EVI alloy in conformance with ASTM F136. The predicate devices are made of identical titanium alloy or stainless steel. Both titanium alloy and stainless steel have been successfully used in numerous intramedullary rods. There are no technological characteristics that raise new issues of safety or effectiveness.

An assessment of performance data is not applicable.
A discussion of clinical and non-clinical tests is not applicable.

Based upon the similarities of the Acumed Small Bone Rod II System and the predicate devices studied, the safety and effectiveness of the Acumed Small Bone Rod II System is substantially equivalent to the predicate devices referenced.

Re: K031438  
Trade Name: Small Bone Locking Rod System II  
Regulation Number: 21 CFR 888.3020  
Regulation Name: Intramedullary fixation rod  
Regulatory Class: II  
Product Code: HSB  
Dated: May 1, 2003  
Received: May 6, 2003  

Dear Mr. Boehmer:  

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.  

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.  

Please be advised that FDA’s issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act’s requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.
This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Office of Compliance at (301) 594-4659. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21 CFR Part 807.97). You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its Internet address http://www.fda.gov/cdrh/dsma/dsmamain.html.

Sincerely yours,

Celia M. Witten, Ph.D., M.D.
